Awesome Speakers

Dear Dave:

I am pleased to offer this heartfelt letter of recommendation for **Clint Swindall**. Clint's opening general session keynote to our Annual Conference was terrific and got us off to a great start! You said he'd be super and he surely was.

Clint proved to be a blend of great speaking skills and an entertaining style, sharing a message of critical importance to our group. I was impressed with his understanding of our industry and his willingness to customize his presentation.

Did I mention that his session was the most highly rated of our whole conference?

Thank you for working with us - sometimes, as a small, non-profit association, we are lost among larger clients, but you treated us with respect and consideration. I've forwarded Clint's materials to LTPA and will follow up once their new director is in place.

Best regards,

Becky Gumm
